

# ML SERIES HEIGHT ADJUSTABLE DESK

A simple, yet robust collection, Global's tubular leg design provides a timeless aesthetic for any workspace.

## Electrical height adjustable desk

The desk top height of ML Series desks can also be adjusted electrically by the use of single or twin electrical motors, one in each leg frame to raise or lower the desk top between 645 – 1275mm to provide the ultimate in affordable 'sit-stand' workstations. The desk can be fitted with an electric height display unit, with memory function, to provide for multi-user use, or simply multi-positions through the working day.

单人位 RECTAGULAR TYPE

L 型 L-SHAPE TYPE

两人对坐 BACK TO BACK TYPE

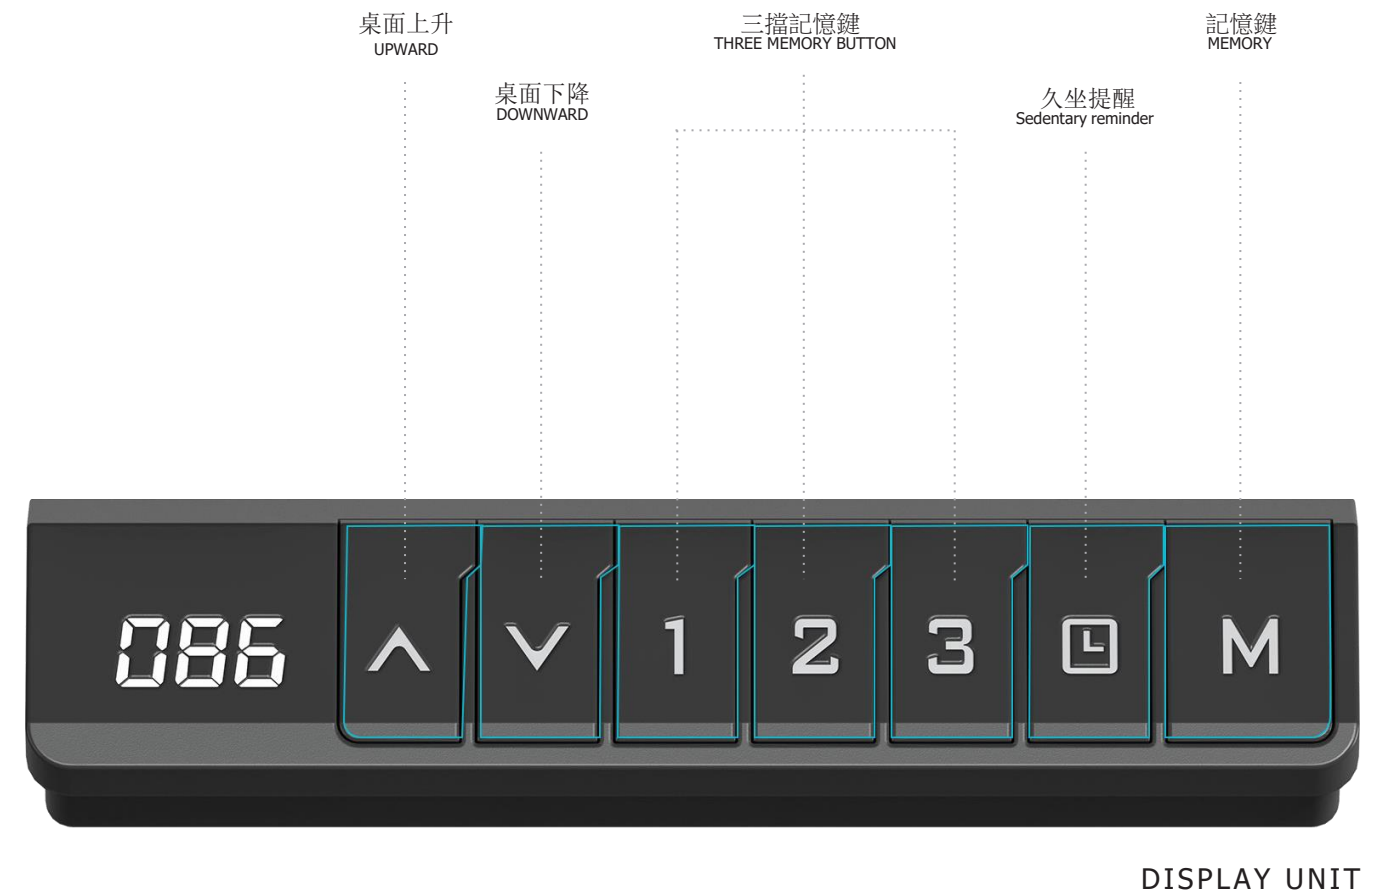

三人位 120 DRGREE TYPE

ML desking provides a stylish ,robust and reliable height adjustable frame within the ML Series collection. Smooth operating electrical mechanism provides the ultimate workstation height adjustment from 645-1275mm, at a realistic price point.

ML products under the stringent BS EN ISO 9001:2008 quality assurance standard. Products are continually tested to ensure they conform to the strength and stability requirements of British and European performance standards.

ML is a freestanding solution accommodating any workstyle with a refined, inverted column design.

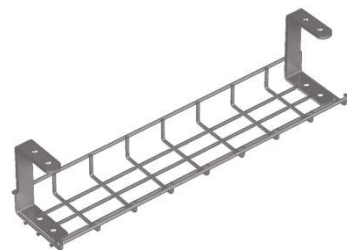

# 升降桌配件

An intelligent and innovative approach to height adjustable table frames, the ML System includes accessories and components for seamless installation
